Information on the topic of "sustainability"

Dear Sirs,

the topic of "sustainability" has been through since our traditional family company was founded Pharmacist Daniel Groz was particularly important more than 200 years ago.

In order to obtain high-quality raw materials for tea, herbs and spice production, clean floors, good air and water quality and socially acceptable working conditions are among the most important prerequisites for ensuring successful and long-term corporate development.

According to the guidelines of the "International Labor Organization" (= international labor movement) and the "Human Rights Declaration" (this is the UN human rights declaration) there is a "Code of Conduct". The environmental and social standards stipulated therein must be strictly observed by our suppliers.

In addition, we require our suppliers to become members of the "Ethical Tea Partnership". This non-profit organization is committed to sustainable tea production. Regular audits help counteract child labor and continuously improve the standard of living of plantation workers. The focus is on social justice and ecological responsibility.

KRÄUTER GROZ has been organically certified for over 20 years and is inspected at regular intervals by the inspection body DE-ÖKO-039 | GfRS GmbH, Göttingen.

The organic seal identifies products and raw materials from controlled organic cultivation. Organic products are becoming more and more important from year to year: Our range grows with new organic items every year, whereby we always keep sustainability in mind. The focus is on avoiding pesticides and environmentally friendly cultivation.

We are constantly working on the implementation of sustainable procurement structures and quality standards. We owe the success and growth of our company primarily to the people who stand behind KRÄUTER GROZ. Treating employees, customers and suppliers fairly is a matter of course for us.

We are always at your disposal for further questions and information.

DANIEL G R O Z SOEHNE GmbH & Co. KG
Germany's oldest tea herbs company
